Today is all about Lake Placid. The morning will start with a drive up Veteran's Memorial Highway to the summit of Whiteface Mountain. At the summit, there are a few things you do not often find atop a peak: a castle built from native stone, a food truck, gift shop, an elevator carved deep inside the mountain top itself, plus a truly spectacular 360-degree, panoramic view of unparalleled beauty. No visit to Lake Placid is complete without a stop at the Olympic Center, which houses three ice surfaces. The 1980 United States Olympic Hockey Team's victory over the Soviet Union will be remembered as one of the greatest athletic events of all time.

After free-time for lunch and shopping in the village we visit High Falls Gorge, a privately owned nature park.

Here, we can take a walk to view the famous AuSable River. Sturdy bridges, walkways, and groomed walking trails provide safe access to breathtaking views and scenic photographic vantage points. We will be able to view four-splendid waterfalls cascading over rocks into a deep crevice carved a billion years ago.
